## Ice Flaker Range

SF300

SF500

### FEATURES & BENEFITS

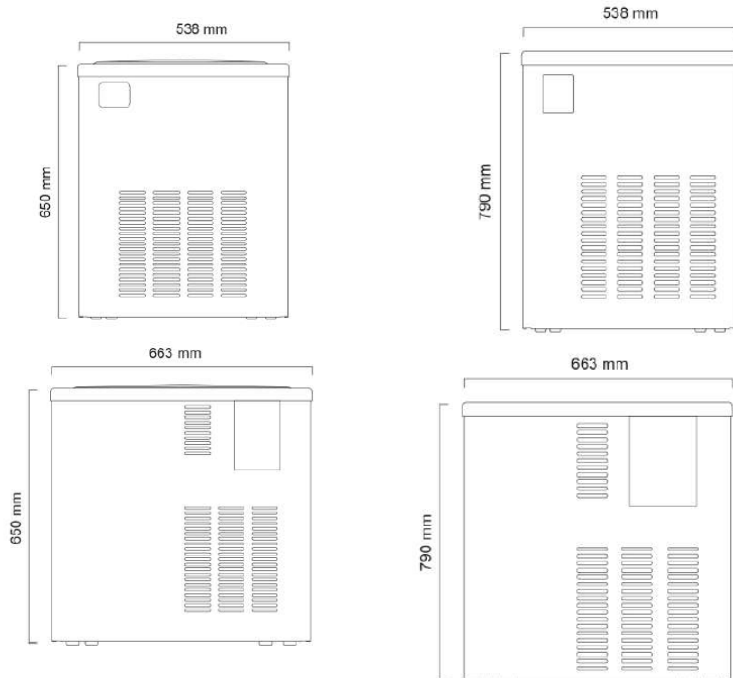

Flake ice has a lot of uses, from the conservation and display of fresh fish to cocktail creation and its use in wellness centers. Flake ice is also used in hospitals and during the production of cured meats and bread, to chill the mix. Flake ice is appreciated for its versatility. Easy to store, place and weigh.

The flakers range comes in both self-contained models and machines to be combined with our wide range of bins. The range reaches a maximum production of 2.500 Kg per day.

Flake ice is generated through a vertical cylinder, with an internal auger which scours the ice from the internal surface of the evaporator, lifting it up to an ice breaker. The system produces uniform ice with minimum quantity of water.

	SF300	SF500
<b>Power</b>	220-240V 1N / 50Hz	220-240V 1N / 50Hz
<b>Volume</b>	0.36m <sup>3</sup>	0.44m <sup>3</sup>
<b>Production kg/24h</b>	320kg / 24 Hours	600kg / 24 Hours
<b>Dimensions</b>	538 x 663 x 650 mm	538 x 663 x 790 mm
<b>Net Weight</b>	78kg	95kg
<b>Stock Codes</b>	<b>CMI-92300</b>	<b>CMI-92500</b>
