

NEW

High spec and high productive encrusting machine for making high quality products up to 12,000 pieces per hour.

Double Capacity
Double Encrusting
Double Productivity

DOUBLE LANE CORNUCOPIA WN155

Product Weight Range
10~250g

- Produces a wide variety of confectioneries and savory foods from all over the world.
- Damage-free extruding system ensures high quality products.
- Further improved hygienic design; stainless cylinder, sanitary screw drive shaft, and enhanced waterproof main body.
- Various lines of options and devices for higher productivity and efficiency.

'Two belts in one row' option is the best suited option for high-speed production of small products.

By using the 'two belts in one row' option, high speed production of small products lands on the belt consistently and stably. Furthermore, since it is possible to uniquely control the up and down mechanism of the conveyor, it can encrust filled products beautifully.

Cake donut

Filled Gnocchi

Boiled fish Paste Mayonnaise

Cheese-filled hamburger steak
(with additional forming device)

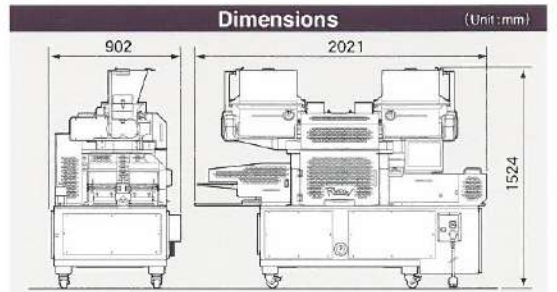

Cheese-filled chicken balls

Washable main body

The machine is redesigned to further prevent water from entering the drive section of the machine when cleaning.

Capacity / Specifications			
Out put	※200pcs./min. (100pcs./min. X 2rows)	Length	2021 mm
Product Weight Range	10~250g	Width	902 mm
Extruding Capacity	1000kg/h 500kg (IN), 500kg (OUT)	Height	1524 mm
Intermittent Encrusting	Up to 99 sec.	Weight	900 kg
Agitator Speed	6 speeds	Electrical Capacity	4.9 kW
Hopper Capacity	40 ℓ × 2		

※ Max production capacity varies depending on the product weight.
For highly elastic dough, 120 pieces per minute (60 pieces per minute per row).
