

**UNIFILLER**  
LINXIS GROUP

Flow control to adjust pump speed for different products

Pneumatic control box links up with hopper level sensor

Unique powerlift feature allows for an easy height adjustment

All stainless steel construction

Pressure control regulator

Use with follower plate for heavier products

## HOPPER TOPPER TRANSFER PUMP SERIES

The Hopper Topper transfer pump keeps your production running 24/7. With safe and gentle pumping technology (similar to hand scooping), your product will be quickly pumped and transferred without sacrificing any of its quality, 3 models to choose from. For more information visit [www.unifiller.com](http://www.unifiller.com).
